EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Robert Wasson on April 12, 2005.

The application has been amended as follows:

IN THE CLAIMS:

In claim 14, line 4, after "gas" the phrase --from a conduit external to the drum-- was inserted.

The above change to claim 14 was made to more particularly point out the stream of gas is provided from a source external to the print drum and thereby more clearly distinguishes the claim language from a typical vacuum drum type arrangement, such as that shown in the prior art reference US 6,074,056, in which the vacuum source is provided inside the drum.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance:

With respect to claims 1, 20 and 26, note the previous comments on pages 7 and 8 of the Office Action dated October 15, 2004.

Art Unit: 2854

With respect to claims 14 and 33 in particular, the prior art of record fails to teach or fairly suggest a printing apparatus or method having all of the structure (or method steps) as recited, in combination with and particularly including, directing a stream of gas from a conduit external to the drum through the screen and towards the drum.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to **Leslie J. Evanisko** whose telephone number is **(571) 272-2161**. The examiner can normally be reached on M-Th 7:30 am-6:00 pm.
